

COLOUR BOOST

SPIRIT-to-SPIRIT THERAPY

no zoom, just bloom

Your colours are essential for your well-being. Your energetic blue print is not just blue - it's supposed to be colourful and vibrant. Chemicals, stress, electronic devices and screen time dull your colours. Colours are the frequencies our chakras rely on, the essence of our soul. The Colour Boost will help your whole system to re-charge, re-balance or not lose its footing.

WHAT TO EXPECT

On the date of the session you will receive a spirit-to-spirit energy treatment recharging, balancing and if necessary re-freshening your colours and thereby the chakras and meridian channels. This is necessary for you to follow your path in life, fulfill your destiny and achieve a state of happiness and contentment. It's calming, soothing, a real treat!
